PROFESSIONAL SUMMARY

Bachelor of Spatial Planning and Land Management with a strong foundation in spatial planning, geographic information systems, remote sensing, surveying, mapping, land administration, and cadastral studies. Proficient in ArcGIS, QGIS, AutoCAD, to analyze spatial conditions, assess land-related information, and produce planning, thematic, and cadastral maps. Experienced in supporting Detailed Spatial Plan preparation, conducting field and land surveys, processing spatial and survey data, and preparing technical planning documents through academic projects and internship experience. Seeking a spatial planner, GIS, land administration, or surveyor role to contribute to evidence-based planning, accurate land information, and effective land management.

EDUCATION

Universitas Diponegoro **Semarang, Indonesia**
Spatial Planning and Land Management (3.35/4.00) 2022 - 2026

- Credits taken: 144/144 (Geographic Information Systems, Regional and Spatial Planning, Land Surveying and Mapping, Remote Sensing, Spatial Data Analysis, and Land Administration)

PROFESSIONAL EXPERIENCES

Badan Perencanaan Pembangunan, Riset dan Inovasi Daerah **Keerom, Indonesia**
Geospatial Survey and Data Analyst Aug 2026 - Oct 2026

- Conducted topographic surveys using Total Station and collected 500+ geotagged points to map drainage infrastructure and settlement locations across settlement units in Arso District.
- Collected 100+ GNSS survey points, including Ground Control Points (GCP), Independent Check Points (ICP), and drainage cross-sectional measurements, and performed aerial drone surveys to map watershed topography and trace water flow paths from upstream sources to downstream river outlets.
- Interpreted survey and drone data to generate 50+ maps, including drainage inventory maps, an orthomosaic, and elevation models (DEM, DSM, DTM), for watershed and topographic evaluation.

Dinas Pekerjaan Umum dan Penataan Ruang **Temanggung, Indonesia**
Spatial Planning Intern Jul 2025 – Sep 2025

- Analyzed technical materials and supporting data for Detailed Spatial Plans (RDTR), ensuring alignment with national spatial planning guidelines.
- Updated and refined 50+ thematic maps, including land cover maps for the Pringsurat Urban Area and physical-environmental maps of Temanggung Regency to improve spatial data accuracy.
- Conducted field surveys to identify, assess, and spatially map the availability and condition of public facilities and infrastructure supporting community activities in the Kranggan Urban Area.

Perencanaan Tata Ruang dan Pertanahan UNDIP **Semarang, Indonesia**
Measurement Team Leader Aug 2024 – Dec 2024

- Led the planning and execution of cadastral, topographic, and photogrammetric surveys, ensuring the completion of all assigned measurements within the designated study area.
- Processed and mapped field survey data using total stations, geodetic GNSS receivers, and drone imagery to produce cadastral and topographic mapping outputs.
- Coordinated the collection and validation over 1,250 survey points to support accurate spatial positioning and topographic mapping.

Perencanaan Tata Ruang dan Pertanahan UNDIP **Semarang, Indonesia**
Spatial Planning Analyst Feb 2024 - Dec 2025

- Conducted field surveys and collected over 1,000 spatial and non-spatial data on land use, physical conditions, infrastructure, public facilities, and community activities to support the preparation of the Wonosamodro Sub-district Detailed Spatial Plan.
- Processed and analyzed geospatial data to produce over 100 thematic maps, identify spatial development patterns and planning issues, and provide an evidence-based foundation for spatial planning decisions.
- Developed regional profiles, spatial planning concepts, zoning directions, and technical reports as key components of the Wonosamodro Sub-district Detailed Spatial Plan.

LEADERSHIP & ORGANIZATIONAL EXPERIENCES

Student Executive Board, Vocational School of Universitas Diponegoro **Semarang, Indonesia**
Research and Academic Affairs Staff Aug 2023 – Dec 2023

- Contributed to the planning and implementation of 10+ academic and student development programs, supporting event preparation, coordination, execution, and evaluation.
- Collaborated with committee members, internal divisions, and external stakeholders to manage program timelines, logistics, equipment, and operational requirements.

- Supported student development activities involving 10+ academic programs, helping ensure effective program delivery and participant engagement.

Spatial Planning and Land Management Student Association **Semarang, Indonesia**
Supervision Division Staff, Organizational Quality Assurance Unit Feb 2024 - Jun 2024

- Monitored and evaluated 10+ implementations of research and academic programs to ensure alignment with organizational objectives and established work plans.
- Reviewed program progress, activity reports, and division performance, providing feedback and recommendations for operational improvement.
- Coordinated with the Research and Academic Affairs Division to identify implementation issues, follow up on evaluation findings, and support effective program delivery.

SKILLS

Soft Skills: Leadership, Teamwork, Analytical Thinking, Problem Solving, Communication, Coordination, Time Management, Attention to Detail

Technical Skills:

- **Spatial Analysis & Remote Sensing:** ArcGIS, QGIS, AutoCAD, Google Earth Pro, Google Earth Engine, SNAP, Agisoft Metashape
- **Surveying and Mapping:** Total Station, Geodetic GNSS, Drone
- **General:** Microsoft Office (Word, Excel and PowerPoint), Google Workspace (Docs, Slides and Spreadsheets), Canva, SketchUp

Language: Indonesian (Native), English (Intermediate / Conversational)
